Acknowledgement

We are grateful for our honorable Provost, Dr. H. M. Nimbark, and our faculties Prof. Hiren Jagani (NSS Co-ordinator) organizing this Campaign. We are grateful for our NSS volunteers who shared valuable time and work. We are also thankful for volunteers for managing and coordinating the event. We are also thankful to the administrative and supportive personnel for making very comfortable arrangements in a Campus to run the Environmental awareness Campaign smoothly.

General Information

Gyanmanjari Innovative University, driven by its commitment to environmental responsibility, has actively embraced the Vibrant Gujarat 2024-5P Campaign to promote environmental awareness among its students. Aligned with the guidelines from the Gujarat Energy Development Agency (GEDA), the college initiated a pledge-taking ceremony on 09/01/2024 to engage students in the mission of sustainable living.

Purpose of Event

The purpose of the “**Vibrant Gujarat 2024: Environmental Awareness Campaign**” is to promote conservation practices and sustainable development. This may include raising awareness about the importance of preserving natural resources, reducing pollution, and adopting eco-friendly practices. This involvement can foster a sense of responsibility and ownership among citizens, encouraging them to actively participate in environmental protection efforts. Vibrant Gujarat is often an international summit that attracts global attention. An environment awareness campaign during such an event could facilitate collaboration with other countries and organizations to address shared environmental challenges.

What is learnt?

Participants gained valuable insights and takeaways such as:

- One of the primary goals of an environmental awareness campaign is to provide information about environmental issues, conservation efforts, and sustainable practices. Participants learnt about the impact of human activities on the environment and ways to mitigate those impacts.
- Focus on cutting-edge semiconductor technology and emerging sectors such as renewable energy, green hydrogen, and e-mobility reflects its futuristic vision.
- Effective awareness campaigns often lead to changes in behaviour. Participants may adopt eco-friendly habits, reduce energy consumption, minimize waste, or make choices that have a positive impact on the environment.
- GMFE College conveyed a strong message to its students: "Dear students, let's unite for a sustainable future! By taking the pledge today, we commit to protecting and preserving our environment. Each small effort counts, and together, we can make a significant impact. Join us in the Vibrant Gujarat 2024-5P Campaign for a greener and healthier tomorrow!"

Conclusion

In conclusion, the campaign served as a powerful platform, to aware participants about the impact of human activities on the environment and ways to mitigate those impacts. Participants may adopt eco-friendly habits, reduce energy consumption, minimize waste, or make choices that have a positive impact on the environment. Gateway to the future, the theme of VGGs 2024 aims to unite world leaders, policy makers and industry experts for discussions on sustainable development to study economic growth and enhancing International co-operation.
