Significance of Integrated:

- ▶ **Saves time:** Integrated courses save students time. Bachelor's degree is of three years and a master's degree can range from two to three years depending on the course. Integrated courses reduce that one year. Students get to learn both courses in 5 years
- ▶ **Saves Money:** Following the admission procedure again can be time and money-consuming. Integrated eliminates the cost of admission at different universities/Institutions.
- ▶ Integrated courses offer an opportunity for students to **pursue different streams together.**
- ▶ **Develop transferable skills**
- ▶ **Increase motivation, and be better prepared for the real world**
