## Welcome & Introductory

A One Day Workshop on HTML and PHP was organized by Computer Engineering Department of Gyanmanjari Institute of Technology on 02, March, 2016. The primary goal of this One Day Workshop is to enhance the technical knowledge of students about HTML and PHP. Hyper Text Markup language is very basic term for Computer Engineering Students. It is used to make static web page. Nowadays PHP is very popular to make dynamic webpage. This workshop is planned and scheduled to address

1. An introduction of HTML (Hyper Text Markup Language)
2. How to make simple and static webpage using HTML
3. Use of various tags of HTML
4. What is use of PHP
5. Required tools and software to make PHP project
6. Latest Tools and Technology
7. Interaction on Latest Trends in current Industry

Prof. Amit Maru (Head of Computer Engineering Department) has initiated workshop with welcome speech and Introduction of **workshop expert Dr. Milan Vachhani (Owner and Director of Virtue Point Infotech. Rajkot).**

## Session-1 (about HTML)

In first session Dr. Milan Vachhani has covered following all important points

- What is web page?
- Difference between Static and Dynamic Webpage.
- How to make webpage using HTML
- Useful HTML tags

Dr. Milan Vachhani has also given idea about how to make interactive and user-friendly page so user can easily interact and understand without any ambiguity.

## Session-2 (about PHP)

In Second session there was discussion about PHP. Dr. Milan Vachhani has given Idea about how to create dynamic webpage. Also illustrate the different between Static and Dynamic webpage with example. There was discussion session about required software to make PHP project.

All students are trying to design web page using various tags of HTML

## Hands on Session

During hands on session students have design many web pages by using various tags of HTML. They have also solve many queries about PHP and HTML.

Students are solving doubts during Hands on Session

## Valedictory

After hands on session Dr. Milan Vachhani has given important information about current tools and software used by industry to make website. There was active interaction session on current trends in Software Company.

At the end of workshop, **Dr. H.M. Nimbark (Principal of Gyanmanjari Institute of Technology)** has given very positive and energetic words to all students. And also encourage them to participate in various kinds of workshops for gaining extra knowledge. He has also explained about importance of technical workshop in engineering field.

### Essential Detail:

**Date and time of Workshop: 02 March,2016, 11:30 A.M to 5:30 P.M.**

**Venue:** Computer Center, Gyanmanjari Institute of Technology, Bhavnagar

**Duration:** 1 Day

**Expert:** Dr. Milan Vachhani

**Organization Name:** Virtue Point Infotech, Rajkot

**Beneficiary:** 2<sup>nd</sup> Semester Computer Engineering Students
