Report on

Workshop on “Modern Trends in Electrical Engineering”

Date: 08/08/2024
Time: 12:00 PM
Venue : XF-05

No. of Student	27
Department	Electrical Engineering
Semester	Diploma 1 st & 3 rd , Degree 3 rd
Faculty Co-Ordinator	MRT

About Workshop:

A workshop on "Modern Trends in Electrical Engineering" was held on [Date] at [Venue], bringing together professionals, academics, and students to discuss the latest advancements and innovations in the field of electrical engineering. The event aimed to provide a platform for knowledge exchange, networking, and collaboration among participants.

Objective

The primary objectives of the workshop were:

1. To introduce participants to emerging technologies and trends in electrical engineering.
2. To provide insights into practical applications of modern electrical engineering concepts.
3. To encourage interaction and discussion among industry experts, academics, and students.
4. To explore the challenges and opportunities in adopting new technologies

About Workshop Session

The workshop successfully achieved its objectives, providing attendees with a comprehensive overview of modern trends in electrical engineering. The event fostered collaboration and knowledge sharing, equipping participants with the tools and insights needed to navigate the rapidly evolving landscape of electrical engineering
