Report on

An Expert Talk & Alumni Interaction

Date: 11/10/2024
Time: 10:00am
Venue : Seminar Hall

No. of Student	20
Department	Electrical Engineering
Semester	Diploma 1 st , 3 rd , 5 th & Degree 3 rd
Faculty Co-Ordinator	DBK MRT

About Expert:

The recent expert talk and alumni interaction session for the Electrical Engineering department aimed to bridge the gap between current students and industry professionals. The event featured a guest speaker from a leading tech company and alumni who shared their insights and experiences.

Objective of Talk

Emerging trends in electrical engineering
Innovations in renewable energy and smart technologies
Career opportunities and skills in demand.
Transition from academia to industry: challenges and strategies.
Importance of networking and continuous learning.
Alumni success stories and advice for current students.

About Expert Session

The event successfully facilitated knowledge exchange and networking, significantly benefiting the electrical engineering students. Future sessions are planned to continue this engagement, enhancing students' readiness for their professional journeys.
