**Industrial Visit Report**

**Visit Date: 11/02/2025 (Thursday)**

No. of Student	Department	Semester	Faculty Co-Ordinator
25	Information Technology	Diploma   Semester 4 <sup>th</sup> (Class – G)	Prof. Suraj D. Gohil
39	Information Technology	Diploma   Semester 4th (Class – F)	Prof. Devang J. Bhatt
19	Information Technology	Diploma   Semester 4th (Class – E)	Prof. Shivani B. Bhamani
32	Information Technology	Diploma   Semester 4th (Class – D)-Genius	Prof. Shwetaba B. Chauhan

## ***Industry Profile:***

---

**Qtonz Infosoft Pvt Ltd** isn't just a technology firm; we are architects of digital evolution, weaving together innovation, reliability, and a passion for excellence. Our journey is marked by a commitment to transforming businesses through pioneering solutions, fuelled by a belief that technology should not only solve problems but inspire new possibilities.

At Qtonz, pride ourselves on being a pioneering force in the digital landscape, driven by a passion for creativity, technology, and client satisfaction. Since our inception in 2013, we have continually evolved, transforming from a budding startup into a dynamic leader in Mobile application development, Game development, Web Application development, CMS development and IT solutions.

At the core of Qtonz lies a philosophy grounded in trust, collaboration, and empowerment. We believe in fostering long-term relationships built on transparency, honesty, and mutual respect. Our client-centric approach ensures that we not only meet but exceed expectations, delivering solutions that drive tangible results and lasting impact.

The mission at Qtonz is to be catalysts for digital evolution, empowering businesses to thrive in an ever-changing landscape through innovative technology solutions. We are dedicated to harnessing the power of technology to solve complex challenges, drive growth, and create lasting value for our clients and communities. By fostering a culture of collaboration, excellence, and integrity, we aim to deliver exceptional solutions that inspire confidence, drive success, and propel our clients towards their goals. Our relentless pursuit of excellence drives us to continuously innovate, adapt, and exceed expectations, ensuring that we remain at the forefront of digital transformation.

Qtonz offers a diverse range of services including excellence:

**MOBILE APP DEVELOPMENT:** Transforming ideas into intuitive and dynamic mobile application experiences.

**GAME APP DEVELOPMENT:** Crafting immersive and captivating gaming experiences for diverse platforms.

**WEB APP DEVELOPMENT:** Empowering businesses with scalable and customizable web application development.

**UX/UI DEVELOPMENT:** Elevating digital interactions through sleek, user-centric design and seamless user experiences.

**CMS DEVELOPMENT:** Empowering your online presence with dynamic content management tailored to your needs.

**ECOMMERCE SOLUTION:** Transforming your vision into a thriving digital marketplace with cutting-edge functionality.

## ***Objective of Visit***

---

**The primary goal** of the Industrial visit by visiting an **IT industry**, students not only enhance their theoretical knowledge but also become aware of the practical, real-world issues that businesses face, and how they can be solved using advanced IT techniques and strategies.

### **Real-World Exposure to Industry Practices:**

Students can see firsthand how IT practices are implemented in real business environments. This experience allows them to understand the importance of their academic learning in solving real-world problems and helps them visualize how theoretical concepts are applied in day-to-day operations. It deepens their understanding and gives them practical knowledge they can apply in their future careers.

### **Learning About Cutting-Edge Technologies:**

IT industries are often at the forefront of adopting new technologies like **Artificial Intelligence (AI)**, **Machine Learning (ML)**, **Cloud Computing**, and **Blockchain**. During the visit, students can learn about how these technologies are being utilized in real-world applications. Students gain exposure to modern technologies, ensuring they stay current and relevant in an ever-evolving industry.

### **IT Support and Services:**

How companies offer technical support and troubleshoot issues. **IT Service Management (ITSM)**: The framework for managing IT services and ensuring service delivery (e.g., ITIL).

### **Understanding IT Infrastructure and Operations:**

Students can observe the physical and virtual infrastructure of IT systems in industries. This includes servers, data centres, networks, and cloud solutions that support business functions. It provides students with a comprehensive understanding of how businesses manage their technology infrastructure, allowing them to see how networks and systems are organized and maintained.

### **Developing Problem-Solving and Analytical Skills:**

During their visit, students may observe how real IT professionals' approach problem-solving in critical situations. They will see how complex technical issues are addressed, and what tools and methodologies are used to find solutions. It sharpens students' problem-solving and analytical thinking, which are essential skills in any IT career.

## ***About Visit:***

---

On 11/02/2025 Thursday, a group of 25 students along with four faculty members, including Prof. Suraj D. Gohil, Prof. Devang J. Bhatt, Prof. Shivani B. Bhamani, and Prof. Shweta B. Chauhan visited QTONZ infotech PVT.LTD, Rajkot. The visit provides students with a unique opportunity to experience cutting – edge technological advancement in IT industry and software development.

The visit aimed to achieve the following key objectives:

### **1. Bridge the gap between academic and industry:**

- industrial visits act as a bridge by providing IT students with real-world insights that enhance their academic learning.
- By observing how concepts like software development, cybersecurity, and networking are implemented in industry, students can see the relevance of their studies in solving real problems.
- These visits also introduce them to industry tools, best practices like Agile or DevOps, and help them understand current trends in technology. Additionally, interactions with professionals provide valuable insights into career paths and skills needed in the industry, enhancing their learning and better preparing them for future careers in IT.

### **2. Exploring Current IT Trends, Tools, and Technologies:**

- An IT industrial visit helps students stay updated with current trends, tools, and technologies by providing direct exposure to cutting-edge innovations in the industry.
- Students witness how emerging technologies like Artificial Intelligence, Cloud Computing, Machine Learning, and Blockchain are applied in real-world scenarios.
- They also gain insights into tools and platforms such as AWS, Azure, and Kubernetes that drive business solutions. This hands-on experience allows students to understand industry best practices and provides them with practical knowledge of how these technologies are implemented, enhancing their academic learning and preparing them for the evolving IT job market.

### **3. Leveraging IT Industry Visits to Shape a Successful Career in the IT Sector:**

- An IT industry visit benefits students by providing direct exposure to the practical aspects of the IT sector. Students gain insights into real-world applications of technologies like AI, cloud computing, and cybersecurity, enhancing their technical skills.
- Observing industry best practices, such as Agile and DevOps, helps them understand the working culture and methodologies that drive success. Additionally, interactions with professionals offer career guidance, mentorship, and networking opportunities. By understanding industry demands and trends, students can align their academic learning with market needs, making them more prepared and competitive for building a successful career in the IT sector.
