Department of Civil Engineering

Expert Talk Report

2025-26

VENUE: -Class - GF 28 (Seminar hall), GMIU, Sidsar road, Bhavnagar.

Program: - Diploma and B.Techin CivilEngg.

Semester: - 1st, 3rd, 5th and 7th Semester

Date: - 18.07.2025

Conducted by: -Prof. Gautam Zadafiya (H.O.D. of Civil Dept.)

Head of the Department, Civil Engineering Department

Gyanmanjari Innovative University, Bhavnagar.

Mobile No: - 7490908378.

ACKNOWLEDGEMENT

We would like to express our sincere gratitude to the management of Gyanmanjari Innovative University for organizing this valuable industrial visit. We are thankful to our respected **Principal, Head of Department, and all faculty members for their continuous support.**

Special Thank to our **Expert person Mr. Harvish Upadhyay (Automation Engineer)** who explain the topic of machine learning in details.

EVENT OVERVIEW

The Department of Civil Engineering, under the Training & Placement Cell, organized an expert talk titled “Machine Learning Applications in Industrial Machinery” to create awareness among students about the role of AI/ML in modern construction and infrastructure sectors.

The session focused on real-life examples such as predictive maintenance of equipment, automation in heavy machinery, AI-driven quality control in construction, and smart safety systems.

DETAILS OF THE EVENT

Particular	Details
Expert Name	Mr. Harvish Upadhyay
Designation	Automation Engineer
Company/Institute	Sofcon India Pvt Ltd
Mode	Offline
Duration	11:00 AM TO 01:00 PM
Target Audience	Diploma & B.Tech Civil Engineering Students
Number of Participants	38 students (Civil Department)
Coordinator	Prof. Gaurang Chauhan, TPA Coordinator

OBJECTIVES OF THE TALK

- ✓ To introduce students to emerging technologies in construction and civil equipment.
- ✓ To highlight how Machine Learning is used in construction machinery, equipment tracking, and maintenance.
- ✓ To inspire students to pursue interdisciplinary skills and tech-driven roles in the construction domain.

KEY TAKEAWAYS FROM THE SESSION

- ✓ Understanding the use of **predictive analytics** in machinery failure detection.
- ✓ ML-based **sensor data interpretation** in cranes, concrete mixers, and earthmovers.
- ✓ Role of AI in **smart construction sites**, drone monitoring, and automated material handling.
- ✓ Real-world case studies shared from showcasing ML integration in equipment fleets.
- ✓ Students encouraged to explore **IoT, and Data Science** in engineering applications.

CONCLUSION

The expert session opened new avenues for Civil Engineering students by highlighting the intersection.
