#### **About Expert:**

---

Dr. R. K. Goyal and Dr. Prakash Shah are renowned academicians with extensive experience in the fields of Pharmacology and Pharmacognosy. They have significantly contributed to pharmaceutical education through teaching, research, and academic leadership.

## Objective of Talk

The objective of the expert session was to enhance students' understanding of core concepts in Pharmacology and Pharmacognosy, bridge theoretical knowledge with clinical and practical applications, and provide academic guidance for future professional development.

## About Expert Session

The expert session was conducted by Dr. Prakash Shah and Dr. R. K. Goyal, who delivered an insightful and interactive lecture on Pharmacology and Pharmacognosy. The session covered fundamental principles, drug classification, mechanisms of action, medicinal plant sources, and therapeutic relevance. The experts shared real-life examples, recent advancements, and examination-oriented tips, which helped students gain clarity and confidence in the subjects. The session concluded with an interactive question-and-answer segment, encouraging active student participation.
