## About Expert:

Mr. Darshan Kanojiya is an industry professional working at Browseinfo Pvt. Ltd., an official Odoo partner company. He has practical experience in implementing and customizing Odoo Enterprise ERP solutions for real business requirements.

He specializes in integrating business processes such as sales, inventory, accounting, and HR modules within Odoo and also works with modern AI-based tools to automate workflows and improve productivity. Through his industry exposure, he regularly deals with client requirements, system deployment, and optimization of enterprise operations using Odoo.

His expertise helped students understand real-time ERP implementation, industry practices, and the practical use of AI in business management systems.

# Objective of Talk

The objective of this session was to provide 6th semester students of all classes with practical industry exposure to ERP systems and modern technologies. The talk aimed to:

- Introduce students to Odoo Enterprise ERP and its real-world business applications

- Explain how organizations connect and manage different business processes using Odoo

- Demonstrate the use of AI tools integrated with Odoo for automation and productivity

- Bridge the gap between academic learning and industry requirements

- Make students aware of career opportunities in ERP, Odoo development, and business automation

- Enhance students' understanding of current IT industry trends and workflows

# About Expert Session

An expert talk was held on the topic **"Odoo Enterprise: Connecting & Publishing through AI Tools using Odoo"**. The session was conducted by **Mr. Darshan Kanojiya**, who is currently working at **Browseinfo Pvt. Ltd.**, an **official partner of Odoo**.

During the session, Mr. Kanojiya shared practical insights into Odoo Enterprise, explaining how businesses can efficiently connect, manage, and publish their operations using Odoo integrated with modern **AI tools**. He also discussed real-world use cases, industry best practices, and the growing scope of Odoo in enterprise solutions. The talk was highly informative and beneficial for students, providing them with exposure to industry-level ERP systems and emerging AI-driven technologies.
