

Gyanmanjari Innovative University

Department of Electrical Engineering

Technical Activity

Expert Lecture on :-

Emerging Trends in Solar Industry.

– Mr. Santosh Jani

The Department of Electrical Engineering had organized the expert lecture on recent trends and future scope of in the field of solar by the industrial expert - Mr. Santosh Jani who is presently the director of DEV SOLAR (SUNRISE SOLAR PVT LTD) Bhavnagar. It was organized on February 29th 2024 (Thursday). This lecture proved to be very helpful students to gain the knowledge about how solar energy is utilized in generating Electricity. The proper functioning of solar power plants is being explained by the expert. The students have actively participated in the activity. Students were also made aware about the future opportunities in the technical field of renewable energy . The expert has also shared his valuable feedback in the solar industry. He, being our alumni too, an alumni interaction is also arranged as per the university protocol. Such events bring about a positive change in their thinking and practical behavior regarding education and specializing their technical skills. Under the guidance of Head of department Prof. Niti Gupta ma'am, students gained much knowledge and were inspired.
