Acknowledgement

We are thankful to our honorable Principal **Dr. H. M. Nimbark**, Head of the department **Dr. Medha Pandya** and our faculties who have fulfilled the need of Industrial visit to enhance the scope of B.Sc., theory and practical knowledge and exam pattern of the microbiology and chemistry subject for the students of chemistry and microbiology of Semester 3rd and 5th B.Sc.

We are especially thankful to **Mr. Munnabhai Patel (Owner)** for share his expertise and informative lecture.

Information about Textile Industry:

For information and practical knowledge, industry visit held on 03 August, 2023 at Jetpur, Gujarat. It was really a splendid visit which exposed students to the field practices.

The Indian textile industry is one of the largest and oldest industry in the country and it plays the most important role in the economy in terms of output, investment and employment. A strong raw material production base, a vast pool of skilled and unskilled personnel, cheap labour, good export potential and low import content are some of the salient features of the Indian textile industry. This is a traditional, robust, well established industry, enjoying considerable demand in the domestic as well as global markets.

Cotton has become a global commodity that is traded, sold, and harvested everywhere. They also grow and sell cotton in its raw form. The cotton textile industry is one of the two largest industries in the country. The United States is another large provider of cotton, whether in raw bales or in threads and yarns.

Purpose of Industrial Visit:

- 1) To interact the students with actual industry personals.
- 2) To make them aware of the industrial procedures required to enter in any company.
- 3) To experience the working environment of industry and visualize all the important Departments in the Industry.
- 4) To introduce students with the peoples of all important departments.
- 5) To prepare the students for the selection of carrier path in different departments of industry.
