Visit Report

ACKNOWLEDGEMENT

We are deeply indebted to the principal **Dr. H.M. Nimbark Sir**, without his guidance and co-operation, our visit would not be possible.

Our sincere gratitude to the Head of Department **Prof. Prashant Viradiya Sir** for giving us permission to go for such an Industrial visit.

We also express our sincere gratitude to **Prof. Bhumi G. Cavda, VISHRANTIBA VADHER, ASHISH GOHIL** who has taken a lot of effort to getting success at each and every step and come along with us.

INFORMATION

Odoo is a suite of open source business apps that cover all your company needs: CRM, eCommerce, accounting, inventory, point of sale, Project management, etc.

Odoo's unique value proposition is to be at the same time very easy to use and fully integrated.

Our mission is to provide a range of easy-to-use business applications that form a complete suite of tools to accompany any business need. We give millions of companies easy access to the software they need to run and expand their business.

Here at Odoo, we have developed 30 main applications which are regularly upgraded. In addition, our community of more than 1500 active members, has contributed another 16000+ apps to cover a wide variety of business needs.

With the "On-premise" offer, Odoo is the most installed business software in the world. It is used by over 3.700.000 users worldwide ranging from startup companies (1 user) to large enterprises (300,000+ users).

A smooth and friendly user experience has been built to ensure the user's seamless adoption.

Fluidity and full integration cover the needs of even the most complex companies. The flexibility of Odoo is such that apps can be added according to the growth of your company, adding one app at a time as your needs evolve and your customer base grows.

Thanks to the open-source community, Odoo is actively maintained by a large base of developers to meet evolving customer needs and provide new, innovative applications.

PURPOSE OF VISIT

Industrial visits are important for the following reasons:

1. To gain practical knowledge of the actual working of the organization.
2. To get practical knowledge of the project development process.
3. To adopt criteria about management.
4. To study coordination between different departments.
5. How to control various circumstances.

In order to achieve the above-mentioned objectives we organized an industrial visit at **Odoo India (Tiny ERP Pvt Ltd)**, Gandhinagar for the 6th Sem. Diploma Engineering. Students.

Significance of the Industrial Tour

- The basic objective of an industrial tour is to study various aspects of different industrial units.
- The different techniques and methods used in industries are studied to gain a wide outlook concerning industrial activities for that purpose

visit Report

What we Learn?

On 2th February 2024 (Friday) at 11:00 A.M. we reached **Odoo India (TinyERP Pvt. Ltd) Research and Developing Unit, Gandhinagar Branch.**

Personal Experience of Students

The industrial tour was the interface between college life and the corporate world. All those who attended experienced the moment. It was clear that all the basics and fundamentals of each information and working methodology be learned thoroughly. Our students learned how technology works, the current platform and languages, upcoming facilities, and helpline briefs. They told us what the need for Odoo products in the current market.

Conclusion

The experience of this tour was really fantastic and unforgettable. It was reverberating experience which cherished all of us. Students got valuable information from the industrial tour and they informed us about their cooperation and humbleness towards clients, how to handle the requirements of clients, and how they are going to enhance and expand their upcoming programs in the future.

**THANK
YOU**
