About the Industrial Visit

An Educational and Industrial Visit was organized for the students of all semesters of the Commerce Department on 21 August 2026. The visit included an industrial visit to AmulFed Dairy, Hansol, Ahmedabad, followed by an educational and recreational visit to Rushivan Adventure Park, Derol.

The primary purpose of the visit was to provide students with practical exposure to industrial operations and enable them to understand the application of management, marketing, production, quality control, and supply chain concepts in a real organizational environment. The visit offered students an opportunity to observe how a large-scale dairy organization manages its operations and maintains efficiency and quality.

Objectives of the Activity

- To provide students with practical exposure to industrial operations.
- To bridge the gap between theoretical learning and real-world business practices.
- To understand the process of production, processing, quality control, and distribution in the dairy industry.

- To familiarize students with organizational structure and management practices.
- To develop observation and analytical skills through experiential learning.
- To promote interaction, teamwork, and learning beyond the classroom environment.

About the Visit

The visit commenced with the students travelling to AmulFed Dairy, Hansol, Ahmedabad. During the industrial visit, students received an opportunity to understand various aspects of dairy operations and the systematic processes involved in the organization. The visit provided valuable exposure to the functioning of a large-scale dairy unit, including operational processes, quality standards, and management practices.

The students observed the importance of hygiene, standardization, quality control, and efficient coordination in maintaining smooth industrial operations. The visit enabled them to relate various concepts studied in the classroom, such as production management, supply chain management, marketing, finance, and organizational management, with their practical application in an industrial setting.

Following the industrial visit, the students proceeded to Rushivan Adventure Park, Derol. The visit provided an opportunity for students to participate in recreational and group activities, encouraging interaction, teamwork, coordination, and social bonding. The experience created a balanced combination of industrial learning and recreational engagement.

Faculty members accompanied and guided the students throughout the visit, ensuring discipline, safety, active participation, and effective learning.

Learning Outcomes

After participating in the Educational and Industrial Visit, students were able to:

- Understand the practical functioning of a large-scale industrial organization.
- Relate theoretical concepts with real-world business and industrial practices.
- Develop awareness of production processes and quality management.
- Understand the importance of planning, coordination, and efficient management in industrial operations.
- Improve observation and analytical skills through experiential learning.
- Develop teamwork, coordination, and interpersonal skills through group activities.

Conclusion

The Educational and Industrial Visit to AmulFed Dairy, Hansol, Ahmedabad, and Rushivan Adventure Park, Derol was successfully conducted on 21 August 2026 with the participation of students from all semesters of the Commerce Department. The visit provided a valuable learning experience by combining practical industrial exposure with recreational and group activities.

The industrial visit enabled students to observe the practical application of various commerce and management concepts, while the visit to Rushivan Adventure Park encouraged interaction,

teamwork, and social engagement. Overall, the visit proved to be an enriching and memorable experience for the students, contributing to their academic learning, practical understanding, and overall development.
