

GYANMANJARI INNOVATIVE UNIVERSITY Department of Civil Engineering

Expert Talk Report 2025-26

VENUE: -Class - GF 28 (Seminar hall), GMIU, Sidsar road, Bhavnagar.

Program: - Diploma and B.Techin CivilEngg. Semester: - 1st, 3rd, 5th and 7th Semester

Date: - 18.07.2025

Conducted by: -Prof. Gautam Zadafiya (H.O.D. of Civil Dept.)

Head of the Department, Civil Engineering Department

Gyanmanjari Innovative University, Bhavnagar.

Mobile No: - 7490908378.

Submitted By:

ACKNOWLEDGEMENT

We would like to express our sincere gratitude to the management of Gyanmanjari Innovative University for organizing this valuable industrial visit. We are thankful to our respected **Principal**, **Head of Department**, and all faculty members for their continuous support.

Special Thank to our Expert person Mr. Harvish Upadhyay (Automation Engineer) who explain the topic of machine learning in details.

EVENT OVERVIEW

The Department of Civil Engineering, under the Training & Placement Cell, organized an expert talk titled "Machine Learning Applications in Industrial Machinery" to create awareness among students about the role of AI/ML in modern construction and infrastructure sectors.

The session focused on real-life examples such as predictive maintenance of equipment, automation in heavy machinery, AI-driven quality control in construction, and smart safety systems.

DETAILS OF THE EVENT

Particular	Details
Expert Name	Mr. Harvish Upadhyay
Designation	Automation Engineer
Company/Institute	Sofcon India Pvt Ltd
Mode	Offline
Duration	11:00 AM TO 01:00 PM
Target Audience	Diploma &B.Tech Civil Engineering Students
Number of Participants	38 students (Civil Department)
Coordinator	Prof. Gaurang Chauhan, TPA Coordinator

OBJECTIVES OF THE TALK

- ✓ To introduce students to emerging technologies in construction and civil equipment.
- ✓ To highlight how Machine Learning is used in construction machinery, equipment tracking, and maintenance.
- ✓ To inspire students to pursue interdisciplinary skills and tech-driven roles in the construction domain.

KEY TAKEAWAYS FROM THE SESSION

- ✓ Understanding the use of **predictive analytics** in machinery failure detection.
- ✓ ML-based **sensor data interpretation** in cranes, concrete mixers, and earthmovers.
- ✓ Role of AI in **smart construction sites**, drone monitoring, and automated material handling.
- ✓ Real-world case studies shared fromshowcasing ML integration in equipment fleets.
- ✓ Students encouraged to explore **IoT**, and **Data Science** in engineering applications.
