

# TIME'S OF GMIU

## CIVIL ENGINEERING

**Gyanmanjari<sup>®</sup>**  
Innovative University

## Industry Visit

The purpose of this visit is to teach students about building services, such as plumbing, fire, mechanical, and electrical services, as part of their study requirements. Learn about the insulation services also. to become familiar with the majority of construction-related details and techniques on-site.

A building's design is greatly influenced by its building services, which include drainage, energy sources, sustainability, façade engineering, the weights, sizes, and locations of major plant and equipment, the placement of vertical service risers, methods for the distribution of horizontal services, drainage, and the overall strategies and standards to be met.

Mr. Ashish Joshi an experience of more than 10 + years in the field of building services contractor. They give valuable guidance to the students regarding building services like electrical and mechanical (lift).

As per our Gyanmanjari Innovative University College tradition we organized an Industrial visit for diploma 4th and 6th semester students of Civil Engineering Department.

## Alumni Interaction

An alumni interaction was organized by the department of civil engineering on 11th march 2025 for the students of Degree 2nd, 4th and 6th semester. The alumina student on this occasion was Parmar Ashish, completed B.E. from Gyanmanjari Institute of Technology in the year 2024. Alumni interactions are events that can help students and institutions build relationships, share knowledge, and support each other. Here are some benefits of alumni interactions: - Support personal and professional development: Alumni interactions can create a supportive network for students to develop their careers. Foster a sense of community: Alumni interactions can help institutions foster a sense of community and create a positive reputation.

## Linkedin Profile

LinkedIn is the most significant platform for maintaining a solid online presence, which is essential in today's professional environment. LinkedIn has become the premier site for professional networking, job advancement, and personal branding, regardless of age or experience level.

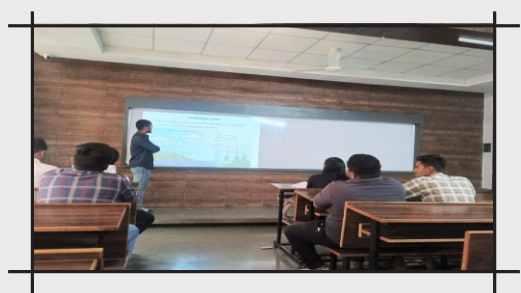

LinkedIn is the center for development and innovation, regardless of your status as a professional or business owner. Professionals can exhibit their abilities, connect with peers, and look for job openings on LinkedIn. The best tool for anyone trying to advance in their job is LinkedIn. For businesses, it acts as a thriving center for hiring, lead generating, and brand exposure.

## Flipped Class

The flipped classroom nurtures a collaborative spirit among students. Through group projects, peer-to-peer learning, and interactive activities, students develop teamwork skills, learn from each other's perspectives, and strengthen their communication abilities.

Also, it gives them an opportunity to ask concerns or look for more assistance in a particular area that they're struggling with. Project-based learning, which is becoming common in classrooms, does not have to be done one-on-one. Students can participate in interactive activities and problem solving exercises through the use of technology in the flipped classroom paradigm, which fosters teamwork and critical thinking. Give pupils a chance to experience things for the first time before class. Give pupils a reason to get ready for class. Establish a system for evaluating students' comprehension.

## Group Discussion

A group discussion is a formal discussion where people share their ideas and opinions on a specific topic. Group discussions can be used to assess a person's communication, teamwork, and critical thinking skills. A group discussion (GD) is a structured conversation where a group of people discuss a topic or problem. GDs are often used in academic settings, job interviews, and business meetings.

Group discussions promote a deeper understanding of a topic and increase long-term retention. Group discussions can also help increase participants' attention and help maintain their focus by involving them in the learning process. Group discussions can also provide feedback to instructors on participant comprehension.

## Soft Skill Development

A resume serves as a summary of your qualifications for prospective employers and recruiters. It makes you stand out from the competition and increases your chances of getting an interview. Employers and recruiters may learn about your brand—that you are and what sets you apart—and your qualifications from your CV. You need a CV that makes you stand out from the crowd of hopefuls in a competitive employment market. Getting an interview is the ultimate goal of a wellwritten.

A resume is an essential tool for job seekers since it gives you a page or two to showcase your most relevant and greatest skills and qualities. In addition to helping you land your first interview after applying for a job, resumes are used by employers to make hiring decisions. Reviewing your resume's format and the information you decide to include on it could be helpful if you're looking for a job. This article explores the significance of a resume and offers helpful advice to assist you in creating an effective one.

## Stress Relaxation

Relieving stress is important because excessive or chronic stress can negatively impact both your mental and physical health, leading to issues like high blood pressure, heart disease, depression, anxiety, and impaired cognitive function; managing stress allows you to maintain a better quality of life by promoting relaxation, improved focus, and overall well-being.

## Villa-Bungalow Visit

The aim of this visit is for learning management soft skill as an engineer and premium building mechanical and electrical services in villa different BHK. A villa often has a big layout and spacious outdoor areas. Villas are usually built with a focus on luxury and privacy, providing more space between neighboring properties. On the other hand, houses, especially in urban settings, tend to focus on functionality within a smaller footprint.

A "villa bungalow" refers to a type of house that combines the characteristics of a traditional bungalow (usually single-story, detached) with the luxury and spaciousness of a villa, often implying a larger, more upscale single-family dwelling with private outdoor space, usually situated within a gated community or planned development.

## Student chapter

IET Student Chapter aims at supporting the students to explore their professional and intellectual abilities, to develop their skills, increasing their competence, adopting the right attitude to maximize their potential and building a professional network that will help them to succeed in their professional endeavors. IE is the largest multi-disciplinary professional body of engineers, established in 1920 with its Headquarters located in Kolkata and incorporated under Royal Charter on 9th September, 1935 by the then His Majesty of King George V.

Joining an Institution of Engineering student chapter provides benefits like access to technical events like seminars, workshops, industrial visits, networking opportunities with peers and industry professionals, potential research grants, discounted rates for attending national conferences, career advice, and the chance to develop leadership skills by organizing events within the chapter itself.

## IQ – EQ

IQ is a metric used to compare an individual's intellectual capacity to that of others. It encompasses a broad range of capabilities, including language, math, thinking, and problemsolving. IQ tests assess these cognitive abilities and provide a numerical value that indicates a person's intellectual capacity. One important aspect of cognitive intelligence is IQ, which is widely used to predict academic and professional success.

Conversely, emotional intelligence (EQ) is the ability to recognize, understand, regulate, and effectively utilize one's own emotions as well as those of others. It requires skills in emotional regulation, interpersonal communication, empathy, and social awareness. High EQ individuals are usually better at managing social situations, resolving conflicts, and forming intimate bonds with others. EQ, which is significant in both professional and interpersonal contexts, is primarily concerned with emotional intelligence as opposed to IQ.
